Gene Stone's *The Watch*, published in 2006 (ISBN 9780810930933 $47.50), at the beginning of the boom in interest in vintage and contemporary mechanical watches, is the most popular book on the subject. It's time for The Watch, Thoroughly Revised. For this new edition, the original author, Gene Stone, is joined by Stephen Pulvirent, the managing editor of Hodinkee.com, the world's leading online watch magazine, with millions of high-engagement readers. Together, they have thoroughly revamped the book to reflect the current state of the watch world, with the addition of new brands and new models, and more focused and nuanced coverage of the traditional brand leaders, including Rolex, Patek Philippe, Omega, and Heuer. The Watch, Thoroughly Revised is still the best book for anyone interested in the world of mechanical watches.
